

## ♦ NEXT-GEN RETAIL AI &amp; INTERACTIVE MIRROR PLATFORM

# Turn Your Store Into an AI Try-On Experience

Commercial digital standees, interactive 4K mirrors, and cloud neural draping systems engineered for fashion boutiques, fine jewellery showrooms, hair salons, and high-footfall retail chains.

Live Neural Try-On • Real-Time Shopper Tracking

### 5-10 Second Neural Draping

Instant photo realistic clothing & jewellery draping with accurate garment physics, eliminating dressing room queues.

### Industrial 24/7 Commercial Duty

LG/BOE 4K commercial optical panels, anti-glare toughened glass, and high-FPS wide-angle cameras.

### Centralized Cloud Retailer CMS

Push seasonal lookbooks, price updates, and video campaigns across 1 to 500+ store locations remotely.

### Dynamic QR-to-Mobile Handoff

Shoppers scan the on-screen QR code to save their lookbook, share on WhatsApp, or buy directly online.

#### TECHNOLOGY SELECTION GUIDE: CAPACITIVE VS. INFRARED TOUCH

**Capacitive (P-CAP) Touch:** Seamless edge-to-edge glass like a giant smartphone. Highest sensitivity, smudge-resistant, ideal for luxury boutiques, jewellery counters, and high-end fashion.

**Infrared (IR) Touch:** Embedded optical bezel matrix. Highly rugged, operates with gloved hands or styluses, highly cost-effective for large mall concourses and event kiosks.

## Cloud AI Processing Refills & Software Platform

Intelligent neural processing module packages to scale image interaction workloads seamlessly across your retail fleet.

### Image Processing Refills (AI Workload Credits)
